

## Assembly Gameshow Fun

Today in assembly we learned about the value of teamwork during a school gameshow which required contestants to fold tablecloths as neatly and quickly as possible. They didn't do a very good job until they learned to listen to advice, work as a team and try their best. The judges were very strict, but we were all impressed with how the teammates responded to the challenge they faced!

### School lunch

Please remember that we are no longer sending leftovers home with children who have a school lunch. There is now no need to bring a lunch box unless, of course, they are bringing packed lunch from home!

### Snacks at clubs

Please ensure that your child only brings fruit, vegetable crudites or a small sandwich as an after school snack. We are seeing an increase in the number of biscuits, cakes and crisps, which are not allowed. Thank you.

## Headlice

We have received reports of head lice in both the infant and junior classes. This persistent problem can only be successfully eradicated if all families cooperate, so, please check all family members over the half term and treat if necessary.

Using a nit comb through hair with conditioner has proved to be the most effective method. Repeat the procedure after a week to ensure any missed lice are found.

Please ensure hair is either cut short at the back and sides, or tied up. Thank you.

## Year 5 and 6 debate mates

Years 5 and 6 had a fantastic workshop with Debate Mate - learning all about the skills of debating. They took part in balloon debates, mini debates and even debated about whether teachers should wear school uniform! They really enjoyed the workshop and will now be able to utilise many of the skills learnt. They certainly make great debaters! Well done Year 5 and 6. Thank you to our Parents Association for using their funds to support this project.
