

Year 2

Dear flying crows

I am feeling sad and lonely because I am far away from home. I was trying to catch the favorite seal when ice suddenly cracked. I was carried away by the dark waves toward the wild wood shore.

I very like your habitat. However it is very different from where I come from. I don't know if you have ever been to Arctic but we have a snow and ice. It is also very cold. I know you and other animals are collecting leaves. This is because I am trying to build a flying machine so I get back home. I am admiring your flying skills. I tried to learn myself but fall into the sea. How can you fly so well. Can you teach me how to fly?

A plan of a flying machine by James and letters by Tamara and Michael.

Year 3

What did they discover?
Isaac Newton discovered that the colour that we see on an object is by the colour of light that the object reflects.

Why was their discovery important?
His discovery was important because it explains how we see coloured objects.

What other interesting facts did you find out about this person?
I found out that he became a very talented mathematician and physicist.

What else would you like to know about this person?
The thing that I want to know about Isaac Newton is why he wanted to look at this sort of thing and

What did they discover?
Ibn Sahl discovered that the rays hit in the same way as they did when they reflected from a curved mirror.

Why was their discovery important?
The discovery was important because he found out how light curved reflective surfaces could focus light from points.

What other interesting facts did you find out about this person?
He read and studied books by the Roman astronomer Ptolemy to find out all he could about how light bends when it goes through different transparent materials.

What else would you like to know about this person?
I would like to know more about him if he has a wife, if he has children and were he lived with his family when he was an adult.

Beatrice and Isabella C put together some interesting fact files about famous scientists who have made discoveries about light. Year 3 were experimenting with different marks to draw stones in Art. Here are some lovely drawings by Jacob, Francisco and Tirso.

Year 3 continued

Year 4

English

Tam was as brown chocolate she had a cute look in her eyes that would make people feel drawn to (strong) she was cute

Tam was a street cat she lived with holly as her DFF (Best Friends Forever) and Luna of course she was always was friendly to new cats in town.

reflect

$$\begin{array}{r} 83 \\ 7 \\ \hline 581 \end{array} \quad \begin{array}{r} 127 \\ \times 5 \\ \hline 635 \end{array}$$

581km < 635 km

The distance is 54 km

The bar model shows that Alex is 2 more days than Bella but Alex is shorter distance.

Isabella CR's wonderful Science work. She made a diagram of an invertebrate and then created a classification key for it. Flora is working very hard to improve her English work. She even answered to the next step Miss Urbano gave her. Mark gave a very impressive reflection answer in Maths. A special mention also goes to Matilde for working so well independently. Well done Matilde!

Year 5

I WANT TO SURVIVE!
YOU WANT TO SURVIVE!
WE ALL WANT TO SURVIVE!

WE ARE LOST ON THIS ISLAND, STARVING AND SUFFERING. THIS ALL HAS TO CHANGE!
NO MATTER HOW WE ARE, WHO WE ARE OR WHAT WE DO, WE HAVE TO ESCAPE THIS ISLAND IMMEDIATELY. WE HAVE EVERYTHING WE COULD, BUT NOT, IT ALL HAS TO CHANGE!
WHATEVER WE DO, WE HAVE TO SURVIVE!

WHO WILL SAVE YOU WHEN YOU ARE IN TROUBLE?
I WILL

WHO WILL HELP YOU WITH YOUR NEW HOUSE?
I WILL

WHO WILL BE THERE FOR YOU WHEN YOU ARE OLD, EXHAUSTED AND MELANCHOLIC? I WILL

WE ALL HAVE TO LEAVE THIS ISLAND... WE DON'T KNOW IF YOU WILL GO TO SLEEP HUNGRY
TRY IF YOU WILL NEVER SEE YOUR LOVED ONE AGAIN
DO YOU WILL BECOME SO CRAZY THAT YOU WILL BIT YOUR HAIR OFF!
I WILL LEAD YOU TO LIBERTY! IT IS NOW OR NEVER
IT IS NOW TO MAKE YOUR DREAMS COME TRUE!

I can't do anything,
You can't do anything,
All of the Fells can't do anything,

Whether you like it or not we are glad on the Island. There is nothing you or I can do. No one comes to bring us supplies, No one comes with Search parties when we need help or food. No one would ever move a Speck.

Moody Murrekin, Silly Spik there is a problem nothing they can do. I think we should all make the best use of our ideas and think something we are grateful to have! Everything!

What else could we do? 130 Fells here on this very Island waiting to be discovered. All nailed badly to the ground. We can't move an inch and there is nothing we can do.

Who will continue the next generation of Fells?
Who will look out for each other whilst we are gone?
Who will teach and guide our children into safety?

What have you done here?
It's all here!

Here we sit, we are all here, here we are! You I see but you are hungry and everyone is angry but because of me I sold the Supplies that I have bought everyone is now happy.

Who is the one to help you and get you food to eat? I am who is the one to sleep all night long? I am who is going to make sure everyone has a voice in this community? I am.

Right now it's crucial or critical 5 out of 10 of you are sick and need help 50% of you have nothing but eggs to where might 10% of you need a leader like me to guide you.

You yes you, what's your name? Ullian.
Ullian is in need of help Ullian deserves a better life. Ullian needs us to work as a community!

Who is going to help Ullian to achieve his dreams?
I bet 20 out of 20 of you all feel the same don't you?

I will be your leader now! Listen is your Sharp or tall or Stub I will be your leader. Then we must climb the highest mountains and Search the darkest glooms to find food, there is not a second to waste. Please me as your leader now!

Extracts from Ada, Kimora and Maddalena's persuasive speeches, which they also performed and recorded.

Year 6

Daive completed an excellent setting description where he was able to create a dark, foreboding atmosphere fantastically. Olympia has been consistently completing her Maths work to an excellent standard across the week. Beatriz blew Mr Ward away with her poignant and emotive poster in recognition of Holocaust Memorial Day earlier this week.

Dear Children,

In today's story on our Zoom assembly, we listened to the story of the Happy Prince and heard about how we should always try to be charitable and think about we can do to help others. You can do this through your words and your actions. What can you do to help and support others at home this weekend?

With love to you all, Mrs Griffiths

Thought of the week

Kind hearts are the gardens,
Kind words are the roots,
Kind thoughts are the flowers,
Kind deeds are the fruits.

Take care of your garden
And keep out the weeds;
Fill it with sunshine,
Kind words and kind deeds.

-H.W. Longfellow
