

The  
**ORATORY**  
**RC PRIMARY**  
School

**What do we want our  
Oratory technicians to  
know, understand and be  
able to do before they leave  
Year 6?**

1. To be able to solve 'real-life' challenges, using their understanding and application of skills taught.
2. To be able to plan projects carefully, analysing existing products, creating prototypes, carrying out market research, and creating detailed graphical designs.
3. To create a quality product which they are then able to evaluate.
4. To learn the principles of nutrition and healthy eating.
5. To develop a love of cooking, sustainability and seasonality.
6. To understand basic food hygiene, cutting and preparation skills and cooking skills to create and design a range of dishes that adhere to different dietary requirements and traditional cuisines.
